INDUSTRY OVERVIEW

The integrated Plastic, Printing and Packaging industries are expanding rapidly with the ever growing consumer demand in the region. As there is a rising trend of more sophisticated consumption habits, with real private consumption increasing by 5.2% (2008-09), the manufacturers are focusing on incorporating innovative machinery, equipment and materials for the packaging of their products.

With the increasing use of plastic materials in different industrial sectors, the Plastic industry has emerged as the second largest growing industry in Pakistan. The production of plastics is part of the Small and Medium Manufacturing sector which maintained a healthy growth of 7.5% in the current year.

Since the Government has declared 2009 as the "National Year of Environment"; there is special emphasis on unifying industrial efforts for waste management. There are a number of companies operating in Pakistan and abroad which are providing plastic recycling machines. Moreover; the manufacturers are devising new ways of producing bio-degradable plastics for environmental protection. These factors have also encouraged the industrialists to incorporate paper and paper-board for providing environment friendly packaging solutions. As a result; the production of Paper and Paper-Board has increased by 2.9%, standing at 702.4 thousand tonnes in 2008-09.

PLASTI & PACK PAKISTAN - POWER OF INTEGRAL SECTORS

Ever since its inception; PLASTI & PACK Pakistan has established itself as an important platform for displaying state-of-the-art machinery, materials and process innovations under one roof. The show has attracted key professionals from major sectors including food & beverages, pharmaceuticals, cosmetics, household products and chemicals, thus has enabled the exhibiting companies to market their products to a highly targeted audience.

The 7th Edition of the International Plastic & Packaging Industry Exhibition - PLASTI & PACK Pakistan 2010 will offer the exhibitors an unparalleled opportunity to meet with their clients, discuss business prospects and close deals in a highly conducive environment.

SHOW HIGHLIGHTS

- The exhibition was inaugurated by Syed Mohibullah Shah, Chief Executive Trade Development Authority of Pakistan and was graced by the presence of Mr. Anjum Nisar, President of Karachi Chamber of Commerce and Industry (KCCI) and Mr. Khalid Firoz Arfeen, Ex-President of KCCI
- Participation of 179 companies from the world's Plastic, Printing, Packaging and Food Technology industries
- Representation of 25 countries including Argentina, Austria, China, France, Germany, Greece, India, Indonesia, Iran, Italy, Korea, Lebanon, Malaysia, Pakistan, Saudi Arabia, Singapore, Spain, Switzerland, Thailand, The Netherlands, U.A.E., U.K., U.S.A. and Vietnam
- Pavilions from Italy, China, Taiwan and U.A.E.
- Major International & local associations and trade bodies extended their full support towards the success of the show
- Attended by more than 10,000 business professionals from the related industries
- Extensive coverage by local & international media with the presence of over 50 electronic and print media representatives

CONCURRENT EVENT

PLASTI & PACK Pakistan 2010 will gain benefits of co-locating with the 7th edition of the International Food & Technology Exhibition - IFTECH Pakistan 2010, which is a promising event that provides technological insights into the food manufacturing and processing equipment.

Since the food industry uses inputs from the plastic, printing and packaging industries for the storage and distribution of its products, IFTECH Pakistan and PLASTI & PACK Pakistan will together provide maximum exposure to the participants.
